EXECUTIVE OVERVIEW

Integrivet Inc. is a professional services company delivering management, technology, consulting, technical support, cybersecurity, facility maintenance, and power-generation services. We help government and commercial clients improve reliability, security, efficiency, and operational readiness through responsive support and practical technical expertise.

CORE COMPETENCIES

- **Consulting:** Management and technical consulting that helps agencies and companies plan, run and deliver complex programs.
- **Project Management:** Project and program management, plus technical advisory for facilities, power and IT.
- **IT Services & Technical Support:** Software and network solutions, Tier 1–3 help desk support, cloud computing, and administrative support.
- **Cybersecurity:** Threat detection, data protection, incident response, and security support for networks, systems, and information.
- **Power Generation O&M:** Operations and maintenance support for fossil and nuclear power facilities, including routine maintenance, upgrades, and emergency response.
- **Facility & Industrial Maintenance:** Preventive maintenance, boiler and mechanical systems, industrial repair, air-compressor service, and reliability-focused maintenance programs.

DIFFERENTIATORS

- 30+ years combined experience across technical, maintenance, and operational environments
- Proven multi-year federal contract performance (U.S. Air Force)
- Preventive-maintenance approach designed to reduce downtime and extend asset life
- Rapid-response capability with cross-disciplinary IT, cybersecurity, and industrial expertise
- Client-focused partnership model built around reliability, safety, and measurable results
